

Physician Performance Insights Reports Are Now Available

Physician Performance Insights reports are available for physicians eligible for our [Physician Efficiency, Appropriateness, and QualitySM program](#). PPI reports show how physicians compare to their peers and include information on improving performance.

Physicians receive PPI reports if they provided care to a minimum number of our members in the report timeframe and practice for the specialties listed on the [PEAQ page](#) on the provider website.

Options for Accessing Your Report

- Sign in to [Availity[®] Essentials](#) and select **PEAQ Report** on the Applications tab in our Payer Spaces section. If you don't yet have an Availity account, [register here](#) at no cost.
- Contact your [Network Representative](#)
- Email [PEAQ Inquiries](#)

PPI reports are based on our [May 2022 methodology](#). For help navigating PPI reports, see our [PPI Report guide](#).

Sample Ratings

Quality of Patient Care
 High performance among peers

Cost Efficiency
 Average performance among peers

Medical Appropriateness
 Average performance among peers

PEAQSM Results Help Our Members

Beginning in August, [Provider Finder[®]](#) will include performance ratings from the PPI reports released in 2023 for cost efficiency, medical appropriateness and quality of patient care.

Provider Finder profiles for physicians who were highly rated in these areas will display a **“Top Performing Physician” designation**. The designation helps our members **make informed care decisions**. Members who get care from top performers may be eligible for member rewards.

Result summaries from 2024 PPI reports will appear on Provider Finder in 2025.

For more details about PEAQ, visit our [PEAQ page](#) or email [PEAQ Inquiries](#).
