# Non-HSA Preventive Drug Benefit for Michaels

## Introduction

Blue Cross and Blue Shield of Texas administers the preventive drug benefit for your group's health plan. Coverage for these medications is subject to your prescription drug benefit plan.

This guide is being provided as a resource to help you manage your prescription drug benefits under your employer's health plan. It includes some commonly, but not all, drugs that are prescribed for preventive purposes.

The drugs listed in this guide will be reviewed from time to time and are subject to change. Coverage of all medications is still subject to your plan limits, exclusions and out-of-pocket requirements (for example, your prescription drug payment levels). Coverage of some medications or drug products may be under your medical benefit. Please verify with your benefit plan if there are any additional requirements before a drug may be covered.

**IMPORTANT REMINDER: These drugs could also at times be prescribed for treatment purposes. As a result, the listing of a drug in the Guide does not mean that it will be covered under the preventive drug benefit program.**

As each individual's medical circumstances are different, it is important for you to confirm the purpose of the prescription with your doctor. Please call the number on your member ID card when your doctor confirms for you that they prescribed one of the listed drugs for treatment purposes so your claims can be processed correctly.

**Unless you provide us with this information, claims for the drugs listed in the Guide will be processed as "preventive," and you or your doctor may be asked by us to provide medical records showing that the drug you're taking is being used for prevention.**

**Please follow these steps to make sure you are properly classifying the purpose of your prescription:**

1. Find your drug in the Guide.
2. Talk to your doctor about whether your drug is in fact being prescribed for preventive purposes (and not treatment purposes).
3. If prescribed for treatment purposes, call the number on your ID card to let us know.
4. If prescribed for preventive purposes, there is no need to call.

# 2024 Non-HSA Preventive Drug List for Michaels

The preventive drug program currently includes prescription drugs in the following categories:

- Antianginal
- Antiarrhythmics
- Anti-coagulants / anti-platelets
- Antipsychotics
- Bowel prep medications
- Breast cancer
- Contraceptives
- Depression
- Diabetes medications
- Estrogens
- Fluoride supplements
- Gastrointestinal ulcer
- Heparin/Low Molecular Weight Heparin
- High blood pressure
- High cholesterol orals
- HIV/AIDS
- Mental health
- Osteoporosis
- Respiratory
- Tobacco cessation
- Transplant

The drugs in each category are listed alphabetically on the following pages.

- Generic drugs are listed in **bold**.
- Brand drugs are listed in all CAPITAL letters.
- Some strengths and/or formulations may not be covered.
- Brand names in parenthesis are listed for reference and are not covered under the benefit.

This drug/drug category may also be included under the Affordable Care Act (ACA) coverage of preventive services. These products have limited or \$0 member cost-sharing (copay or co-insurance), when meeting the conditions as outlined under the regulation and when you use a pharmacy or doctor in your health plan's network. Not all products covered under the ACA are shown. Coverage can vary based on your benefit plan and/or prescription drug list. Call the number on your member ID card if you have any questions and to find out what you may pay.

**REMEMBER: Just because a drug is on the preventive drug benefit list, doesn't always mean it is covered. It also doesn't mean that it may be covered by your benefit plan before your plan deductible is satisfied. Coverage of all medications is still subject to your plan benefits. Please see your benefit plan materials for coverage details, or call the number on your member ID card.**
